

HydraMaster Air Movers

HM1000

EPIC Micro AirMover

The compact size of the **HM1000** disguises its massive drying and airmoving capabilities for restoration, floor drying, and upholstery drying. The **HM1000** provides you with low amp, energy efficient airflow drying and air movement power in a stackable airmover. You can daisy chain up to six units together. The high density polypropylene construction will quickly dry areas where larger airmovers simply won't fit – including restrooms, crawl spaces, under counters, and inside counters. Safer operation in wet environments is signified by the ETL certification. Operator versatility and ease-of-use can be seen demonstrated by the directional airflow (horizontal, 45 angle and 90angle) It is affordable, lightweight and takes up less space, making it the perfect drying enhancement device for your technicians to carry into homes and businesses to speed dry carpets, floors, and furniture.

Specifications

Power	110 VAC, 60 Hz
Motor	1/5 hp, 3 Speed
Amps	1.9
Safety	ETL Certified
Cord Length.....	10 ft.
Outlet.....	2x Duplex
Airflow.....	800 cfm
Weight	10.5 lbs.
Dimensions.....	10 x 11.75 x 13 in

Description

- Great for small spaces
- 2 outlets
- Light weight
- Affordable

Part Number: 100-500-005
List Price: \$99.00

HM2000

Axial Fan AirMover

Whether you are trying to evacuate contaminated air from a home or building, or need the air ventilation, air movement and drying capabilities of an axial fan, the **HM2000** is your compact, yet powerful choice.

The **HM2000** is manufactured of durable polyethelene, and you can connect up to 125 feet of ducting. It has a sealed motor for safer operation and is ETL certified. This economical 12" axial blower is lightweight and stackable.

Specifications

Power	110 VAC, 60 Hz
Motor	1 hp, Single speed
Amps	8.0
Safety	ETL
Cord Length.....	15 ft.
Outlet.....	N/A
Airflow.....	3500 CFM
Weight	29.5 lbs.
Dimensions.....	15.5 x 18.5 x 20 in

Description

- Stackable
- Perfect for air ventilation
- Connect up to 125 ft. of ducting
- Sealed motor
- Light weight

Part Number: 100-500-006
List Price: \$249.00

HydraMaster Air Movers

HM3000

Centrifugal AirMover

The **HM3000** provides you with low amp-high airflow drying and air movement power in a stackable airmover. You can daisy chain up to 3-4 units (12 amp circuit). You have three motor speed choices. The quality is inherent in the sealed motor design and high density polypropylene construction. Safer operation in wet environments is signified by the integrated GFCI protection and ETL certification. Operator versatility and ease-of-use can be seen demonstrated by the directional airflow (horizontal, 45 angle and 90angle) and built-in 25ft cord with molded wrap storage.

Specifications

Power	110 VAC, 60 Hz
Motor	1/3 HP, 3 Speed
Amps	2.3/2.5/2.9
Safety	ETL Listed
Cord Length.....	25 ft.
Outlet.....	GFCI Duplex
Airflow.....	1100 CFM
Weight	24.20 lbs.
Dimensions.....	15.75 x 14.5 x 17.25 in

Description

- Daisy chain up to 3-4 units (12 amp circuit)
- Stackable
- 3 Motor speeds
- Sealed motor
- Built-in cord wrap

Part Number: 100-500-004
List Price: \$195.00

HM4000

Axial Fan Multi-Surface AirMover

The **HM4000** axial fan delivers up to 3500 cfm of air movement, exchange, and evacuation power. These multi-surface air movers draw only 2.8-3.2 amps, meaning multiple units can be used on the same circuit. Perfect for use in "top down" drying applications, air exchange and/or evacuation, and for directed surface drying of problem areas such as walls, crawl spaces, and attics.

Specifications

Power	115 VAC, 60 Hz
Motor	1/4 hp, Dual speed
Amps	2.8/3.2
Safety	ETL/CETL/CE/SAA
Cord Length.....	25 ft.
Outlet.....	GFCI Duplex
Airflow.....	3500 CFM
Weight	29 lbs.
Dimensions.....	20.75 x 21.5 x 12.5 in

Description

- Stackable
- 360 degree directed with AMB 100 bracket
- 2 operating positions
- Durable housing for rugged use
- Low noise
- Cord wrap

Part Number: 100-500-007
List Price: \$299.00
