

# HydraMaster Air Mover

## HM5000

# RapidFlow

### Thrust AirMover

**The new leader in low-profile airmover technology comes from HydraMaster!**

**Compact Design, Uncompromising Airflow Performance**

The bar has been raised in low amp (1.75amps), high cfm performance (850cfm) in stackable low-profile airmovers. The **HydraMaster HM5000 RAPIDFLOW THRUST AIRMOVER** is manufactured in a rugged, robust roto-molded package with a sealed motor. Don't let the economical price fool you. It has all of the bells and whistles you expect – daisy chainable up to 5-6 units on a 15 amp circuit; 2 speed motor, built-in cord wrap; GFCI Duplex for safety; and a 25 foot power cord. The interlocking design allows you to safely stack and transport more units than ever before in your work vehicle.

## Specifications & Description

### Specifications

Power .....	115 VAC, 60 Hz
Motor .....	1/4 HP - 2 speed
Amps .....	1.75/1.80
Safety .....	ETL Listed
Cord Length .....	25 ft.
Outlet.....	GFCI Duplex
Airflow .....	850 CFM
Weight.....	18.75 lbs.
Pack Weight.....	21 lbs.
Dimensions .....	15.75 x 14.5 x 17.25 in
Pack Dims.....	21.5 x 17 x 10 in
Pallet Qty .....	28 units
Container Qty.....	450/20 ft; 960/40 ft

### Description

- Daisy chain up to 3-4 units (12 amp circuit)
- Stackable
- 2 Motor speeds
- Sealed motor
- Built-in cord wrap
