

Purpose Built for Restoration and Flood Work

Purpose built to extract water, the newest member of the Titan family, the Titan H₂O, is a specialist in its field. HydraMaster has designed this machine exclusively for the professional water damage restoration contractor. It has everything you need to remove water in a hurry, but it's 75% easier to operate than a traditional truckmount and requires 50% less maintenance.

The Titan H₂O has the power you need for major flood work and water removal in a hurry. With a liquid-cooled, 32.5HP engine and over 400+ cfm, there's more than enough power to handle extra-long hose reaches with dual wands to achieve quick drying.

Key Features:

- Purpose built for water and flood extraction
- Simplified design for easy maintenance
- Dual wand capable
- Simple and reliable
- Powerful vacuum, with proven performance

Standard Equipment

- Runtime hour meter
- Vacuum gauge (0-30" Hg)
- Pre-wired APO Switch
- Engine choke
- Engine throttle
- Electrical circuit protection
- Vacuum Hose Length: 100 ft x 2"
- Wand Whip Line: 10 ft 1-1/2"
- Recovery Tank: 100 gallon MaxxAir™ recovery tank
- Battery box
- Van installation kit
- Operation & maintenance manual
- Embroidered HydraMaster jacket

Kubota® 32.5 HP Liquid Cooled Engine:

- Keyless electronic ignition
- Exceptionally rigid cast iron block
- 3 cylinder OHV design
- Fuel-efficient technology, 1.7 gph at 300 psi

4007 Dominator™ Tri-Lobe Blower

- HydraMaster exclusive design
- Dual oil bath design with sight level windows
- Durable helical gear drive

Optional Equipment:

- Evolution Flood Wand
- Dura-Flow Auto Pump-Out (APO)

Machine Specifications:

- Dimensions: 26"W x 39"H x 45"D
- Weight: 775 lbs
- Ignition: Electric keyless start
- Wand Capacity: Dual
- Fuel Consumption: 1.8 gph
- Uses: Residential and Large Commercial
