

# TreadMaster™

## Automatic Escalator Cleaner

### Cleans treads and moving walkways effortlessly

For over 25 years, TreadMaster has been the leading escalator and moving walkway cleaner worldwide. This self-contained, compact unit cleans and polishes unsightly stair treads.

### Unique, hands-off system

- Cleans and polishes in one continuous motion
  - First the brush cleans inside the tread step
  - Then the pad polishes the tread step
- Powerful vacuum collects all residue
- Brings back the original luster
- Cleans escalators and moving walkways effortlessly without needing staff supervision
- Uses 98% less labor than conventional methods
- Brush sizes available to fit 23", 24", 32" and 40" width escalators (most are 40") Heads are custom cut.

### TreadMaster cleaning is efficient

The ease of set-up and take-down makes cleaning escalator treads and moving walkways a "hands-off" job. TreadMaster frees up personnel to perform other tasks while the TreadMaster is at work. The built-in vacuum system, easily replaceable heavy duty polishing pad and nylon-grit brush ensures complete and thorough cleaning.

### TreadMaster cleaning is safe

One-stop, automatic cleaning eliminates risky, manual cleaning procedures. TreadMaster removes unsafe substances from stair tread surfaces, reducing the risk of liability hazards for customers and employees. TreadMaster also comes with a handy clip-on "ESCALATOR CLEANING IN PROGRESS" sign to deter escalator passengers.

### A simple three-step process

1. Simply position the TreadMaster at the bottom of the escalator
2. Lower the cleaning head into position
3. Activate the escalator.

Without any repositioning during any part of the cleaning process, TreadMaster cleans the tread width completely and thoroughly. Most escalators respond best to multiple hours of cleaning with the TreadMaster.\*

\*The TreadMaster does not clean the platform, risers, and hand rails. (although a manual brush for the risers is included with your TreadMaster)

## Escalator Tread Spot Cleaner

- Escalator Tread Spot Cleaner is an excellent product to use in conjunction with the TreadMaster. This fast acting spot cleaner is designed specially for use on aluminum escalator steps.
- It helps to remove oily and sticky spots and spills and gum that the brushes of the TreadMaster could not. You simply spray it on the spots and spills while the TreadMaster is working for best and faster results. It can also be used in between TreadMaster cleanings for spot and spill treatment.

- Escalator Tread Spot Cleaner is non-flammable and non-conductive so it can be used while motor and equipment are operating.

Part Number: 000-031-105 (12 - 20 oz Cans per case)
