

Quake

Heavy Duty Pre-Spray & Traffic Lane Cleaner

Quake is the perfect carpet prespray and traffic lane cleaner for filthy apartments, rental units, and commercial carpets. It is packed with uncompromising, hard-core cleaning chemistry. It will cut through grimy grease, oil, food and beverage spills like they were not even there.

Seller's and manufacturer's liability for any and all losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product, with respect to which losses or damages are claimed. The manufacturer and seller make no representation or warranty, including merchantability or any other kind, expressed or implied. The foregoing may not be altered except by written agreement by officers of the manufacturer.

Before using, the user shall determine the suitability of this product for its intended use, and user assumes all risk and liability whatsoever in conjunction therewith. The user should thoroughly review the material safety data sheet for this product and follow recommendations for mixing, application, disposal, and the use of any applicable personal protective equipment (PPE). The manufacturer, distributor, and seller of this product warrant that the chemical contained herein conforms to its standard specifications.

If for any reason you are not thrilled with the performance of Quake return it to your distributor and we'll get you a product that does.

One U.S. Gallon (3.78 liters)

Quake is the perfect carpet prespray and traffic lane cleaner for filthy apartments, rental units, and commercial carpets. It is packed with uncompromising, hard core cleaning chemistry. It will cut through grimy grease and oil and food and beverage spills like they were not even there. It is excellent for emulsifying particulate soils. The synergistic combination of solvents, surfactants, boosters, and high pH alkaline cleaning agents will quickly remove the toughest soils found in restaurants, apartments, and restoration cleaning jobs. **Quake** is a super-concentrated pre-spray, and is designed to be used at 1 part solution to 8 to 24 parts water depending upon soiling conditions. **Quake** starts to work the second you spray it onto the carpet. As soon as it comes in contact with soil, it emulsifies, suspends, dissolves, and defloculates even the most stubborn soils. **Quake** is a powerful carpet prespray and traffic lance cleaner that is designed to be used in conjunction with a compatible alkaline extraction detergent or acid/neutralizing rinse. It is formulated to be used on synthetic carpets, specifically, nylon that have been neglected or require constant cleaning. It has a ready-to-use pH of 12.0 – 12.8, so it is not recommended to be used on warranted residential carpets that have been properly maintained. **Quake** is low foaming, has a mild fragrance and rinses free of the carpet for low residue cleaning.

Contents:

2-Butoxyethanol (C.A.S #111-76-2); Sodium Tripolyphosphate (C.A.S. #7758-29-4); Blended Napthalene Sulfonate (Proprietary); Potassium Hydroxide (C.A.S. #1310-58-3); Lauramine Oxide (C.A.S.# 1673-20-5); Water (C.A.S. #7732-18-5)(C.A.S. #7732-18-5)

Quake es el Prespray perfecta alfombra y limpia vía de circulación para apartamentos sucios, las unidades de alquiler, y las alfombras comerciales. Se embala con la química inflexible, duro limpieza básica. Se cortará a través de la grasa sucia y los derrames de petróleo y alimentos y bebidas como que ni siquiera estaban allí. Es excelente para emulsionar los suelos de partículas. La combinación sinérgica de solventes, surfactantes, refuerzos, y altos representantes de pH alcalino de limpieza rápida eliminará los más difíciles de los suelos que se encuentran en restaurantes, apartamentos, y los trabajos de restauración de limpieza. **Quake** es un super-concentrado pre-rociado, y está diseñado para ser utilizado en solución parte 1 a 8 a 24 partes de agua, dependiendo de las condiciones de suciedad. **Quake** comienza a trabajar el segundo se lo echas sobre la alfombra. Tan pronto como entra en contacto con el suelo, se emulsiona, se suspende, se disuelve, y deflocula incluso los terrenos más difíciles. **Quake** es un potente y Prespray alfombra limpiador lanza tráfico que está diseñado para ser usado en conjunción con un detergente compatible extracción alcalina o ácida / neutralizar enjuague. Está formulado para ser usado en alfombras sintéticas, en concreto, de nylon que se han descuidado o requieren una limpieza constante. Cuenta con un producto listo para usar pH de 12,0 a 12,8, por lo que no se recomienda para ser usado en alfombras residenciales garantizados que han recibido el mantenimiento adecuado. **Quake** es de baja espuma, tiene una fragancia suave y enjuaga libre de la alfombra para la limpieza de residuos de baja.

Directions:

1. Always pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
2. Prespray with 1 part **Quake** mixed with 24 parts hot water. For extreme soiling, mix 1 part to 8-12 parts water. For standard injection sprayer, mix 1 quart water with 4 quarts of **Quake** into 5 quart container.
3. For carpets with high levels of caked-on grease and oil contamination, consider boosting by adding 2 oz. of **GreaseBreaker** with each mixed gallon.
4. Extract with a compatible alkaline extraction detergent or acid/neutralizing rinse. For faster cleaning, reduced fatigue, and more effective soil removal, extract with the **RX-20™ Rotary Extraction Tool**. In furniture dense environments use the **Evolution™ cleaning wand**.
5. For faster drying, especially in humid environments, consider the use of an axial, centrifugal, or downdraft air mover after cleaning.

Instrucciones:

1. Prespray con **Quake** 1 parte de mezcla con 24 partes de agua caliente. En caso de suciedad extrema, mezclar 1 parte de 12.8 partes de agua. Para el pulverizador de inyección estándar, mezclar 1 litro de agua con 4 cuartos de galón de **Quake** en un recipiente de 5 cuartos.
2. Para las alfombras con altos niveles de apelmazamiento en la grasa y la contaminación por petróleo, considere aumentar mediante la adición de 2 oz de **GreaseBreaker** con cada galón de mezcla.
3. Se extrae con un detergente compatible extracción alcalina o ácida / neutralizar enjuague.

GHS U.S. – CLASSIFICATION: DANC

Harmful if swallowed. Causes skin irritation. Causes severe skin burns and eye damage. Causes serious eye irritation. Causes serious eye damage

PRECAUTIONARY STATEMENTS (GHS)

The product is classified and labeled according to the Globally Harmonized System (GHS)

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use.

Wash skin and contaminated clothing thoroughly after handling.

Do not eat, drink or smoke when using this product.

Wear suitable protective gloves/protective clothing/eye protection/face protection.

IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

IF ON SKIN: Wash with plenty of soap and water.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If skin irritation occurs: Get medical advice/attention.

If eye irritation persists: Get medical advice/attention.

Dispose of contents/container in accordance with local/regional/national/international regulations

OSHA HAZARDS: Target Organ Effect (Glycol Ether DPM)

TARGET ORGANS: Kidney, Liver, Nerves (Glycol Ether DPM).

CLASSIFICATION SYSTEM: NFPA/HMIS Definitions: 0-Least, 1-Slight, 2-Moderate, 3-High, 4-Extreme.

NFPA RATINGS (SCALE 0-4): Health = 2, Fire = 0, Reactivity = 0

HMIS RATINGS (SCALE 0-5): Health = 2, Fire = 0, Reactivity = 0
