Heavy Duty Powdered Carpet Pre-Spray

Incorporating our famous solvent cleaning booster, Blitz with Grease Breaker goes to work immediately breaking down and dissolving heavy built up oil based soiling. This economical powder pre-spray will melt the grimy soil away right before your eyes.

Concentrated powder Blitz with GreaseBreaker will cut through the worst greasy, oily soils faster and easier.

- This formula incorporates our famous solvent cleaning booster, GreaseBreaker, into a blend of alkaline cleaning agents and builders that quickly dissolves and emulsifies the heaviest of soil.
- Non-enzyme formula doesn't need extended dwell time
- The versatility of Blitz with GreaseBreaker will allow you to effectively clean trashed and neglected carpets, as well as high soil environments like restaurants and dirty apartments.
- Blitz with GreaseBreaker has a pleasant citrus fragrance that leaves a fresh clean smell to the room without being overpowering.
- Being a super concentrate powder, Blitz with GreaseBreaker will save you money. It dissolves quickly and easily.

Mixing Directions:

1. Always pre-test all cleaning solutions in an inconspicuous area for colorfastness prior to application.
2. For increased efficiency, apply Blitz with GreaseBreaker with an injection sprayer to take advantage of solution pressure and heat created by your high performance portable extractor or truckmount. You can also use a "pump-up" pressure sprayer, or electric or battery powered sprayer. Apply in even overlapping patterns
3. Mix 2 oz. per gallon of hot water for pump-up sprayer. For an in-line injection sprayer, mix 10 oz. of chemical per 5 quarts of hot water. Shake well for complete mixing.
4. Spray evenly across the carpet. Allow 3-5 minutes for dwell time. Do not allow to dry
5. Extract with a compatible alkaline extraction detergent or acid/neutralizing rinse. For faster cleaning, reduced fatigue, and more effective soil removal, extract with the RX-20 Rotary Extraction Tool. In furniture dense environments use the Evolution cleaning wand.
6. For faster drying, especially in humid environments, consider the use of an axial, centrifugal, or downdraft air mover after cleaning.

Available in:
6.5 Pound Jar; Case of 4 x 6.5 Pound Jar and
30 Pound Pail
Part # 850-146
