## SECTION 3 - COMPOSITON/INFORMATION ON INGREDIENTS

### CHEMICAL CHARACTERISTIC DESCRIPTION

Mixture of the substances listed below with nonhazardous additions.

| COMPONENT                         | PERCENT | CAS #      | EINECS #  | GHS CLASSIFICATION                                  |
|-----------------------------------|---------|------------|-----------|-----------------------------------------------------|
| Diethylene Glycol Monobutyl Ether | 5-10    | 112-34-5   | 203-961-6 | Eye Irrit: Cat 2B                                   |
| Sodium Octane Sulfonate           | 1-5     | 5324-84-5  | 226-195-4 | Skin Irrit Cat 2, Eye Irrit Cat 2A<br>STOT SE Cat 3 |
| Alcohol Ethoxylate                | 1-5     | 68439-46-3 | Not Found | Eye Irrit Cat 2B                                    |
| Sodium Thiosulfate                | 1-5     | 7772-98-7  | 231-867-5 | Eye Irrit Cat 2B                                    |

Irrit. = Irritation, Corr. = Corrosion, Cat. = Category, Dam = Damage, Tox = Toxic, STOT SE = Single Target Organ Toxicity Single exposure.

| SECTION 4 – FIRST | AID MEASURES |
|-------------------|--------------|
|-------------------|--------------|

| DESCRIPTION OF FIRST AID MEASURES |                                                                                                                                                                                                                                                                                |  |  |  |
|-----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|--|
| GENERAL                           | : Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice. Show the label where possible.                                                                                                                                               |  |  |  |
| EYE CONTACT                       | : Immediately flush eyes with water for at least 15 minutes. Hold eyelids open to ensure adequate flushing. Get immediate medical attention.                                                                                                                                   |  |  |  |
| SKIN CONTACT                      | : Remove contaminated clothing and shoes. Wash affected skin area with soap and water. Delayed skin damage is possible if product is not completely washed off. Get immediate medical attention.                                                                               |  |  |  |
| SWALLOWING (INGESTION)            | : If ingested, dilute swallowed material by drinking water. DO NOT INDUCE VOMITING.<br>If vomiting occurs spontaneously, keep airway clear. Give more water when vomiting<br>stops. Never give anything by mouth to an unconscious person. Get immediate<br>medical attention. |  |  |  |
| INHALATION<br>OTHER INSTRUCTIONS  | <ul> <li>Remove to fresh air. Get immediate medical attention.</li> <li>Rescue personnel must wear appropriate protective equipment during removal of victims from contaminated areas. Treat symptomatically and supportively.</li> </ul>                                      |  |  |  |

## **SECTION 5 – FIRE FIGHTING MEASURES**

| EXTINGUISHING MEDIA<br>SPECIAL PROTECTIVE<br>EQUIPMENT AND<br>PRECAUTIONS FOR FIRE<br>FIGHTERS | <ul> <li>Dry chemical, foam, water or carbon dioxide.</li> <li>In the event of a fire, wear a NIOSH (USA) or CEN (EU) approved, positive pressure self-contained breathing apparatus (SCUBA) and full protective clothing. Evacuate al non-essential personnel from the danger area.</li> </ul> |  |

| UNUSUAL FIRE AND<br>EXPLOSION HAZARDS                                                          | No further relevant information is available.                                                                                                                                                                                                                                                   |  |

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

| PERSONAL PRECAUTIONS,<br>PROTECTIVE EQUIPMENT &<br>EMERGENCY PROCEDURES           | : | Restrict access to keep out unauthorized or unprotected personnel. Wear protective equipment. Avoid inhalation and direct contact.                                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------------------------------------|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ENVIRONMENTAL PROCEDURES<br>METHODS AND MATERIALS FOR<br>CONTAINMENT AND CLEAN-UP | : | Keep spilled material away from sewage/drainage systems and waterways.<br>All clean-up personnel must be properly trained. Confine the spill and remove<br>incompatible materials and ignition sources. Ensure adequate ventilation. Secure the<br>source of the leak if conditions are safe. Neutralize spill and collect using an<br>appropriate absorbent material such as clay or vermiculite. Place waste in an |

appropriate container for disposal. Use care during clean-up to avoid exposure to the material and injury from broken containers.

## SECTION 7 - HANDLING AND STORAGE

 PRECAUTIONS FOR SAFE HANDLING
 Use with adequate ventilation. Wear proper protective equipment. Do not mix with water or acids without proper dilution and agitation to prevent a potentially violent reaction.
 CONDITIONS FOR SAFE STORAGE
 Store in closed, properly labeled containers. Protect containers from heat, physical damage, ignition sources and incompatible materials. Have emergency equipment for fires and spills readily available.

#### SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

TLV (THRESHOLD LIMIT VALUE)

: The TLV in section in section III is the ACGIH/TLV-TWA (threshold limit value/time weighted average concentration for an eight hour work day). The STEL is the short term exposure limit and the (Ceil) is the ceiling limit.

| COMPONENT                         | OSHA PEL – TWA  | ACGIH – TLV     | ACGIH – STEL    |
|-----------------------------------|-----------------|-----------------|-----------------|
| Diethylene Glycol Monobutyl Ether | Not Established | Not Established | Not Established |
| Sodium Octane Sulfonate           | Not Established | Not Established | Not Established |
| Alcohol Ethoxylate                | Not Established | Not Established | Not Established |
| Sodium Thiosulfate                | Not Established | Not Established | Not Established |

| EYE PROTECTION         | : Wear chemical splash goggles or face shield.                                                                                                                                |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| SKIN PROTECTION        | : Minimize contact with product. Wear chemical resistant coveralls, boots, gloves, apron and/or suitable long-sleeved clothing.                                               |
| RESPIRATORY PROTECTION | : In case of brief exposure use respiratory filter device. In case of intensive or longer exposure, use respiratory protective device that is independent of circulating air. |
| VENTILATION            | : Ensure adequate ventilation.                                                                                                                                                |
| ADDITIONAL MEASURES    | : Emergency eyewash and safety shower facilities should be available in the immediate work area.                                                                              |
| REQUIRED WORK/HYGIENE  | : Wash hands thoroughly after handling. Keep away from all food stuffs, beverages and feed. Do not eat, drink or smoke in work area.                                          |

#### **SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES**

| APPEARANCE<br>ODOR       | : | Clear light amber liquid with mild odor.<br>Slight Odor. |
