

# TITAN H<sub>2</sub>O

## Purpose Built for Restoration and Flood Work

The Titan H<sub>2</sub>O is a specialist in its field, extracting water. HydraMaster has designed this machine exclusively for the professional water damage restoration contractor. It has everything you need to remove water in a hurry, but it's 75% easier to operate than a traditional truckmount and requires 50% less maintenance.

The Titan H<sub>2</sub>O has the power you need for major flood work and water removal in a hurry. With a liquid-cooled, 32.5HP engine and over 400+ cfm, there's more than enough power to handle extra-long hose reaches with dual wands to achieve quick drying.

### Standard Equipment

- ✓ Vacuum gauge (0-30" Hg)
- ✓ Pre-wired AWDS/APO Switch
- ✓ Vacuum Hose Length: 100 ft x 2"
- ✓ Wand Whip Line: 10 ft 1-1/2"
- ✓ 100 gallon MaxxAir™ Recovery Tank
- ✓ Van installation kit and battery box
- ✓ Embroidered HydraMaster jacket
- ✓ **Kubota® 32.5 HP Liquid Cooled Engine**

Keyless electronic ignition

3 cylinder OHV design

Fuel-efficient technology, 1.7 GPH at 300 PSI

3-year manufacturer's warranty

Operating at 3000 RPM

- ✓ **4007 Dominator™ Tri-Lobe Blower**

Dual oil bath design with sight level windows

Durable helical gear drive

400+ CFM

AWDS (Automatic Waste Disposal System)  
Optional

### Key Features

- Purpose built for water and flood extraction
- Simplified design for easy maintenance
- Dual wand capable
- Simple and reliable
- Powerful vacuum, with proven performance

### Machine Specifications

- Dimensions: 26"W x 39"H x 45"D
- Wweight: 775 lbs
- Ignition: Electric keyless start
- Wand Capacity: Dual
- Fuel Consumption: 1.7 GPH at 300 PSI
- Uses: Residential and Large Commercial
