

HYDRASHELF Adjustable Shelving System

FOR THE FORD TRANSIT AND DODGE PROMASTER VANS

Wall Mounted • Adjustable • Low Profile

HydraMaster's HydraShelf Adjustable Shelving System maximizes available space in your van to fit more tools, chemicals, drying equipment, instruments, and accessories without losing valuable floor space. It stores, secures, and protects.

It fits over the wheel wells of unibody vans and takes advantage of higher roofs for more storage space. Higher bottom shelves allow for spotting kits or tool storage on the van floor below the first shelf.

You can attach tool brackets and shelves in numerous configurations so you can get to your tools quicker, stay organized and always look professional.

WAND STORAGE OPTION
SHELVES CAN BE ADJUSTED WITH 2 OR 3 BINS WITH WAND

SOLUTION REEL OPTION
(REEL NOT INCLUDED)

Standard Features

- ✓ Made from heavy duty stainless steel and anodized aluminum for maximum corrosion resistance
- ✓ Shelf spacing easily adjusts with single knob on each end of the shelf
- ✓ The entire shelf system moves front to back to accommodate additional accessory mounting locations
- ✓ Shelves have 4-inch sides to ensure items stay organized and in place
- ✓ Rounded corners for safety
- ✓ Can also be used to store tools, brushes and more!
