

- **Hand-Held Cleaning System** is a non-motorized tool specially designed to effortlessly remove dirt, grime, and bacteria from stationary handrails.
- **Flexible** handle connection allows for easy maneuvering to ensure the best cleaning results. Small, compact, and fits easily on any janitorial cart.
- **Utilizes** the same supplies and technology as our other market-leading products for easy, efficient cleaning of stationary handrails.
- **Clean** Handrails, guardrails, guide rails, banisters. i.e., ADA handrails, stairways, walkways, and more.
- **Safe & Effective** on Metal, Rubber, Fiberglass, Wood, Linoleum, and Plastic
- **Use with All Thomsen's** Cleaning, Conditioning, and Sanitizer solutions or with rail-specific manufacture recommended solution i.e., brass cleaner for brass rails, hospital rail required cleaners and more.

Hand-Held Kit Includes:

- **Ergonomic Handle** - with the ability to add an extension pole for easy access to footrails.
- **Foam Pad Holder** - that easily adapts and self-molds to handrails of all sizes.
- **12 Dual-Sided Cleaning Pads** - are washable, reusable, and delicate to the surfaces being cleaned.

Thomsen's Heavy Duty Cleaner TH-C-0075	Thomsen's Cleaner / Conditioner TH-C-0074	mPerial Sanitizer for Thomsen's TH-S-0092
